TOTALLY MESS FREE

NO IRON NO GLASS NO WATER

INSTRUCTIONS

ALPHABRIX

SIMBRIX is the fun, easy to build, creative 'Brix' system you can use again and again. Each set is made up of a number of 'Small builds' where you create the individual parts of the larger 3D display. Follow the easy 'how to' guide and steps below to create your SIMBRIX Set.

CONNECT

Follow templates in the booklet to assemble designs.

BUILD

Build designs in 3D by slotting Simstix into the centre of a Simbrix and connecting to another design.

DISPLAY

Create and display words in 3D from your letters.

CONNECTING SIMBRIX

CORRECT
Make sure each Simstix is slotted in the same way.

INCORRECT
If a Simstix is slotted in a different orientation, designs may be impossible to complete.

NOTE: If you get stuck you can use the QR code below to download full size templates

Scan the QR code to visit the Simbrix website for ideas, tutorials and full-size printable templates.
